

CANADIAN PRECAST/PRESTRESSED CONCRETE INSTITUTE

CPCI PROFESSIONAL FIRM MEMBERSHIP

CANADIAN PRECAST/PRESTRESSED
CONCRETE INSTITUTE

ABOUT CPCI

The Canadian Precast/Prestressed Concrete Institute (CPCI) is a national organization whose purpose is to advance the design, manufacture and use of structural, architectural and specialty precast/prestressed concrete in Canada. CPCI is the body of knowledge and prime source of design, sustainability, research and technical information about precast and prestressed concrete in Canada. Our interest is to stimulate and advance the common interests and general welfare of the architectural, structural, and underground and specialty precast concrete products industries, including safety and welfare of our employees and the public at large.

WHAT WE DO

- Provide the latest technical information about precast concrete in Canada: www.cpci.ca/publications
- Lead and advocate the precast concrete industry's contribution to a sustainable built environment and green building practices: www.sustainableprecast.ca
- Communicate the sustainable attributes of precast concrete products, systems, and services within the construction industry: www.cpci.ca
- Establish industry-wide standards of design and production to improve quality: www.precastcertification.ca

WHAT IS A PROFESSIONAL MEMBER

Any individual who is a registered architect or engineer, or a firm that is engaged in the practice of architecture or engineering, or any person who is deemed by the Board of Directors to have abilities or standing equal to the above qualification.

WHAT CPCI CAN DO FOR YOUR FIRM

Professional Firm Membership Benefits:

 - Discounts at PCI Level I and II training schools

“We greatly value our Professional Firm Membership with CPCI because of the opportunities it provides us in the precast industry. At MTE, we believe a membership is only as valuable as the effort you put into it and that is why we look to be involved at many levels with CPCI. This participation has provided us with beneficial industry contacts, up-to-date information and superior networking opportunities. CPCI Professional Firm Membership provides easy access to relevant information and provides opportunity for its members to monitor the issues faced by the precast industry, and how those issues affect our business and the business of our clients.”

*- Kurt Ruhland, P.Eng., Director at MTE Consultants Inc.
(member of CPCI Technical Committee)*
